

Auto-Lock. Keyless Garage Protection

Enhanced security
for the things that are
precious to you.

A hand holding a red key fob near a black car in front of a white garage. The background shows a white garage door and a blue sky. A red diamond shape is overlaid on the image, containing the 'b&d' logo.

Auto-Lock.

In today's world, protecting your home has never been more important. As the largest door in the home, the garage door plays an important role in protecting what's valuable to you so in response to a growing demand for extra security and convenience, we have released **B&D Auto-Lock**.

ENHANCED SECURITY FOR THE THINGS THAT ARE PRECIOUS TO YOU

Do you own a car or collectible that is worth more than money could buy? Garages often store some of the most valuable things we own yet we often compromise on garage security.

HOW IT WORKS

This smart keyless technology allows you to **lock your garage door** every time you close it using nothing but your regular remote control. The lock more than doubles the force required at the lock point to lift the door from a closed position, helping protect your home and loved ones*.

Auto-Lock comes standard on B&D Panelift® Icon™ and is available as an optional extra on B&D Panelift® garage doors. (Ask your B&D representative for details).

*Based on a door using an engaged automatic opener

For more details call **13 62 63** or visit www.bnd.com.au

If it's valuable to you, don't just protect it  it.
